

AL CHARTER SYSTEM

“Stay on the road to profitability!”

Your company will never outgrow AL Charter software! AL Charter is upgradable to meet your future needs. AL Charter is designed for 2 to 20 users, with a Client/Server version for unlimited users available. The AL Charter program pays for itself in as little as 90 days through increased employee productivity.

Features:

- **Order Processing** – The single entry order system tracks the order from quote to final payment. AL Charter provides confirmations, daily dispatch report, driver orders and invoices printed with a few key-strokes.
- **Quote Management** – AL Charter keeps track of prepared quotes and converts the quote to a real order in a couple of keystrokes. Quotes are printed automatically with confirmations.
- **Automated Dispatch** – Both driver and bus may be dispatched using the AL Charter program.
- **Extensive Management Reports** – Operational and statistical include:

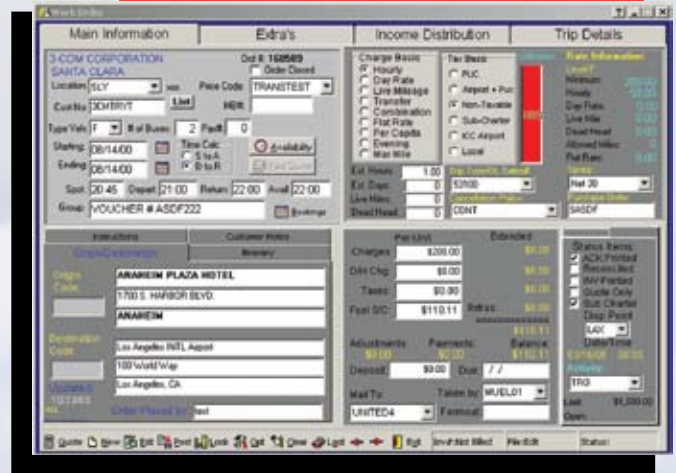

Customer List
Order Lookup
Sales Report
Cancellation Report
Driver Listing
Special Requests
Sub-Charter Income/Expense
Daily Departures
Work Schedule

Non-Billed Orders
Sales Analysis
Driver Payroll Report
Fuel Tax Report
Custom Report Generator
A/R Aging
Cash Receipts
Invoice Register
Un-Earned Payments

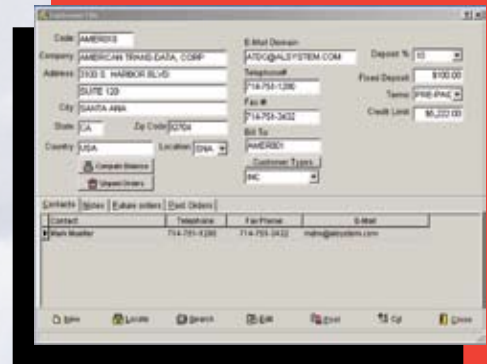

Customer Activity
Charter Tax Report
and many more...

AL Charter uses a multi-table SQL report generator, which allows you to create any report you need, even if not in the standard package.

Upgrade from 2 to 10 or to an unlimited number of users with no change in your employee's learning curve. Features are identical. This is a significant factor to profitability as your business grows.
